Professional Summary

Creative and reliable Full Stack Developer with a passion for designing and delivering unique, user-centric web experiences. Hands-on experience with **Node.js**, **React**, RESTful APIs, and **MySQL**, with a strong background in full project lifecycle development — from technical scoping and quoting through to delivery and optimization. Skilled in balancing front-end elegance with robust back-end integrations. Known for collaborating with internal teams (Sales, PMs, Stakeholders) to ensure on-time, in-budget delivery across fast-paced digital environments.

Technical Skills

- **Languages & Frameworks:** JavaScript, TypeScript, HTML5, CSS3, Node.js, React.js, Express, Bootstrap

- **Frontend Tools:** React, Tailwind CSS, Bootstrap, Vue.js (familiar)

- **Back-End & API:** Node.js, Express.js, RESTful Web Services, Backend Integrations

- **Database & Hosting:** MySQL, PostgreSQL, Microsoft SQL Server

- **DevOps & Deployment:** Git, GitHub, Docker (basic), DeployHQ (familiar), Azure DevOps

- **Workflow:** Agile Scrum, UX/UI prototyping, Full project lifecycle, Budget-aware development

- **Soft Skills:** Technical Scoping, Stakeholder Communication, Team Collaboration, Quoting & Estimation

---

Certifications

- Meta Front-End Developer Professional Certificate – Coursera

- Microsoft SQL Server for Reporting & Querying – LinkedIn Learning

- Git & GitHub for Developers – LinkedIn Learning

- Google UX/UI Design Certificate – Coursera

Education

MSc Computer Science – Aston University, UK
2024 – 2025 (Expected)

Bachelor of Architecture – University of Tehran, Iran
2015 – 2020

Professional Experience

Software Engineer

Behpayeh Ltd – Tehran, Iran
July 2021 – Aug 2023

- Led the development of multiple internal platforms using **Node.js**, **React.js**, and **SQL Server**, replacing spreadsheet-based tools with scalable web systems.

- Collaborated with internal stakeholders (engineering, HR, finance) to scope, quote, and deliver technical solutions within defined timelines and budgets.

- Built RESTful APIs and connected backend services to dynamic frontend interfaces.

- Participated in Agile development cycles and contributed to feature estimation and planning.

- Actively managed deployments and maintained Git version control across dev environments.

IT Planning Engineer

Batab Construction Group – Tehran, Iran
Jan 2019 – June 2021

- Created custom reporting tools and scheduling dashboards using **VBA**, **SQL**, and planning visuals.

- Acted as liaison between planning teams and software developers to evaluate and implement automation opportunities.

Software Support Developer (Project-Based)

Batab Construction Group – Tehran, Iran

Nov 2017 – Jan 2019

- Supported internal development of form-driven UI tools with **HTML**, **CSS**, and **SQL** integration.

- Streamlined reporting workflows and digitized key data capture systems.

Languages

- English – Professional Proficiency (IELTS 8.5)

- Persian (Farsi) – Native
